

## AGENDA

# **Brady & Tachy / CRT technology** at MicroPort CRM

October 12-13, 2023

Clamart, France

# Brady & Tachy CRT technology at MicroPort CRM

## Course description

This Course provides all the tips and tricks when programming MicroPort CRM's pacemakers, ICD and CRT devices. You will benefit from this training even if you are already very experienced in MicroPort CRM technology.

## Course objectives

By the end of this training session, the participants will be able to:

- Understand MicroPort CRM's unique algorithms
- Identify all the pacemakers, ICD and CRT programming steps using the programmers

### DAY 1

October 12, 2023

|       |  |                                   |
|-------|--|-----------------------------------|
| 9:30  | Welcome                                      | C. Deniaud                        |
| 9:45  | Automatic algorithms in pacemakers – AutoMRI | A. Couturier                      |
| 10:45 | <i>Coffee Break</i>                          |                                   |
| 11:05 | Pacing avoidance strategy: SafeR™            | A. Couturier                      |
| 12:00 | Pacemaker Programmer hands-on                | A. Couturier/C. Deniaud/N. Iscolo |
| 12:45 | <i>Lunch</i>                                 |                                   |
| 13:45 | Atrial arrhythmia management                 | A. Couturier                      |
| 14:45 | Dual sensors and Sleep Apnea Monitoring      | A. Couturier                      |
| 15:25 | <i>Coffee Break</i>                          |                                   |
| 15:45 | ANSWER clinical study results                | A. Couturier                      |
| 16:30 | Pacemaker Programmer hands-on                | A. Couturier/C. Deniaud/N. Iscolo |
| 17:30 | End  |                                   |

# AGENDA

## DAY 2

October 13, 2023

|              |  |                      |
|--------------|--|----------------------|
| <b>8:30</b>  | MicroPort company presentation               | Richard Poulet       |
| <b>9:00</b>  | MicroPort ICDs and discrimination algorithms | C. Deniaud           |
| <b>10:15</b> | <i>Coffee Break</i>                          |                      |
| <b>10:35</b> | Fast VT zone and BTO                         | C. Deniaud           |
| <b>11:15</b> | ICD Programmer hands-on                      | C. Deniaud/N. Iscolo |
| <b>12:15</b> | <i>Lunch</i>                                 |                      |
| <b>13:15</b> | Factory visit                                |                      |
| <b>14:00</b> | SonR /RESPOND-CRT clinical study results     | C. Deniaud           |
| <b>14:45</b> | <i>Coffee Break</i>                          |                      |
| <b>15:00</b> | CRT Programmer hands-on                      | C. Deniaud/N. Iscolo |
| <b>16:00</b> | End  |                      |
